NOTICE!!

Dear Customers:

For some time we have been very lenient in the collection of delinquent accounts. You have taken advantage of this by becoming more and more negligent in the payment of your Electric Service bills. In August more than 25 per cent of all our customers in Elba were delinquent. This condition can not be allowed to continue.

Beginning this month, September, 1940, we will comply with the Rules and Regulations as approved by the Alabama Public Service Commission, which are given below.

Your Electric Service Bill becomes due and payable on the first day of each month. You have ten (10) days in which to pay the ret bill. At the expiration of this periodall unpaid accounts are delinquent, and a 10 per cent penalty is added to the ret bill. You are mailed a notice of your delinquency and given five (5) days to pay this amount. If unpaid at the end of five days from date of notice, you service will be discontinued. In the event this becomes necessary a \$1.00 fee will be charged and collected before you are reconnected.

NOTICE!!

Dear Customers:

For some time we have been very lenient in the collection of delinquent accounts. You have taken advantage of this by becoming more and more negligent in the payment of your Electric Service bills. In August more than 25 per cent of all our customers in Elba were delinquent. This condition can not be allowed to continue.

Beginning this month, September, 1940, we will comply with the Rules and Regulations as approved by the Alabama Public Service Commission, which are given below.

Your Electric Service Bill becomes due and payable on the first day of each month. You have ten (10) days in which to pay the net bill. At the expiration of this period all unpaid accounts are delinquent, and a 10 per cent penalty is added to the net bill. You are mailed a notice of your delinquency and given five (5) days to pay this amount. If unpaid at the end of five days from date of notice, your service will be discontinued. In the event this becomes necessary a \$1.00 fee will be charged and collected before you are reconnected.
